

Advantages of Bolt's Full Fiber Optic Connection

GREAT FOR RURAL AREAS

Signals travel longer distances without weakening.

WEATHERPROOF

It's resistant to lightning and not easily affected by weather.

FUTURE-PROOF

When there is a technology upgrade, the cable stays put, only the equipment changes.

DURABLE

Does not corrode like copper does.

COMPETITIVE RATES

Less equipment required means lower costs and less maintenance.

Enjoy one of the nation's highest quality and fastest Internet speed with Gigabit technology never before offered in the state of Oklahoma!

Internet Speeds That Can't Be Beat!

**CONNECT YOUR BUSINESS TO
BOLT FIBER OPTIC SERVICE TO GET THE
WORLD'S FASTEST INTERNET SPEED!**

A Subsidiary Corporation of: **REC** NORTHEAST OKLAHOMA
ELECTRIC COOPERATIVE

Your business thrives when everything runs efficiently. Bolt can help streamline your production with Internet speeds up to **200x faster** than what most Americans have today!

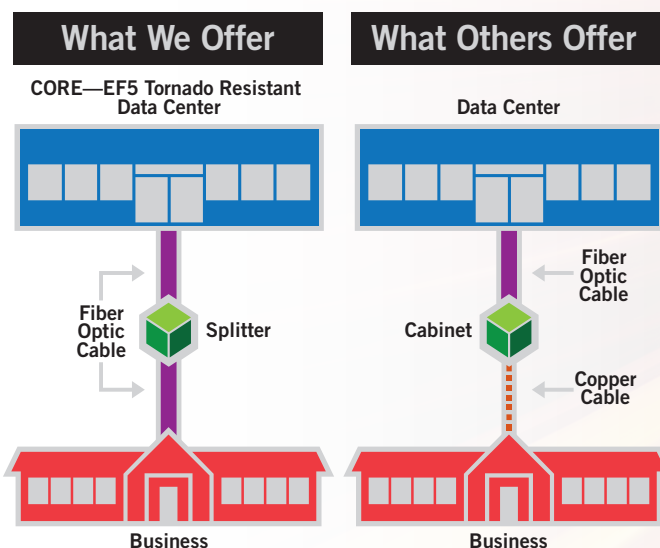

Bolt is the state's first full fiber optic cable provider, and the only provider available in Northeast Oklahoma. We deliver faster Internet speeds, compared to other area providers, including speeds up to **20, 50, 100 Mbps and 1 Gigabit!** Our full fiber network is built in a redundant ring topology, helping us achieve **99.999% uptime**.

With Bolt Internet Service you and your employees can enjoy:

- *Faster downloads and uploads*
- *Consistent speed all day and all night*
- *Stronger, more reliable connection*

THE BOLT DIFFERENCE

What makes Bolt unique is our ability to bring **fiber optic cable directly to your office**. Other companies offering fiber optics are not able to do that.

Because we provide a full fiber optic connection, versus a fiber to copper connection, **your Internet speed will remain strong**, even during times of bad weather.

CUSTOM SERVICES OFFERED

As your complete Internet provider, we offer custom services to ensure your business is protected including:

- *Intrusion Prevention*
- *Anti-Virus*
- *Anti-Spyware*
- *Anti-Spam*
- *Malware Protection*
- *Content Filter*
- *Application Control*
- *SSL Inspection*
