All users of BOLT's Internet Service must comply with this AUP. BOLT does not actively monitor, censor, or directly control any information that is stored or transmitted through the Internet Services. BOLT does not exercise editorial control over any content or uses of the Internet Service except for our proprietary websites. Violation of the rules of this AUP may result in any action detailed in Section 3(c)(3) in addition to suspension or termination of your Internet Services. Furthermore, BOLT expressly reserve our rights under the law to take any other actions BOLT deems necessary. You remain solely liable for your use of BOLT's Internet Service and any content that you upload, download, or transmit through it.  - b. Suspend your account;
 - c. Terminate your account;
 - d. Bill you for administrative costs and/or reactivation charges; and
 - e. Bring legal action against violations and/or to collect damages, if any, caused by violations.
- D. Network Management Practices. BOLT utilizes reasonable network management practices tailored to achieve legitimate network management purposes. Because bandwidth is a limited resource for broadband Internet service providers, it is essential that BOLT reasonably manages its network to ensure proper use and enjoyment of the internet by all of its customers. By engaging in reasonable and responsible network management, BOLT prevents its customers from being subjected to the negative effects of spam, viruses, security attacks, network

congestion, and other risks that threaten to degrade the internet service experience. BOLT network management practices, as set forth below, are consistent with industry standards.

BOLT will not unjustly or unreasonably prevent or interfere with competition among content, applications, service, or device providers. We use various tools and industry-standard techniques to manage our communications network and deliver fast, secure, and reliable internet access services. We believe in complete transparency and provide the following disclosures about our network management policies and practices:

1. Blocking: BOLT does not block or discriminate against lawful content.
2. Throttling: BOLT does not throttle, impair, or degrade lawful traffic-based content, application, service, user, or use of a non-harmful device.
3. Affiliated Prioritization: BOLT does not favor any internet traffic applications over others and has no plans to do so.
4. Paid Prioritization: BOLT does not favor or prioritize any internet traffic applications in exchange for paid or in-kind consideration intended to benefit a particular content, applications, services, or access devices.
5. Congestion Management: Congestion of BOLT's network is rare but can occur. When it occurs, our internet subscribers may experience decreased speed and performance, but bandwidth is allocated fairly, without regard to protocol, application, or the service the subscriber chooses to access through their internet access service.
6. Application Specific Behavior: BOLT does not make use of any application-specific network management practices. BOLT does not favor, modify, inhibit, rate control, or block any specific protocols, protocol ports or fields, or any applications or classes of applications, while reserving the right to block ports as necessary to protect the network and its users.
7. Device Attachment Rules: BOLT does not specifically limit device types for attachment to its network but does not guarantee the functionality of third-party devices for such access. In order for a device to be approved

for use on BOLT's network, the device must conform to publicly available industry standards and not be harmful to BOLT's network.

8. Network Security: BOLT offers its subscribers unrestricted access to lawful content, services and applications available on the internet. BOLT takes industry-standard measures to safeguard our network and the broader internet from harm or disruption, including protection against Distributed Denial of Services attacks, phishing, spoofing, and other forms of unwanted or harmful online content and activities. In those instances where through our network management practices, we identify online content as harmful or unwanted, the content may be prevented from reaching subscribers, or subscribers may be given an option to identify or inspect flagged content first to determine if it is harmful or unwanted. BOLT's goal is to ensure the network's reliability and availability by countering any malicious traffic that could compromise it. BOLT reserves the right to take any action deemed necessary, including suspending or terminating service to subscribers who engage in activities that violate these BOLT Terms and Conditions of Service, including the Acceptable Use Policy contained in section III, C above.

- E Network Performance. BOLT offers its broadband internet access service via Fiber-to-the-Home ("FTTH") utilizing fiber optic cable to deliver telephone and data services. The advertised speed of internet service is the maximum speed achievable with the technology utilized for the broadband service offering to which has been subscribed. BOLT makes every effort to support advertised speeds and will dispatch repair technicians to customer sites to perform speed tests as needed to troubleshoot and resolve speed and application performance that may be caused by its network. We measure availability, latency, and aggregate utilization on the network. Based on internal testing using platform specific test protocols, the mean upload and download speeds are typically the advertised speed plus or minus five (5) percent. This internal testing also indicates a mean round trip latency of 10 milliseconds (ms) to local ports. It is important to note, however, that bandwidth speed at which a particular distant website or other internet resources may be downloaded, or the speed at which your customer information may be uploaded to a distant website or internet location is affected by some factors beyond BOLT's control, including for example: the speed of the connection from a distant web server to the internet; congestion on intermediate transport networks, the limitations of your computer or other electronic devices,

fixed or wireless accessing the internet; or your wireless router/WiFi equipment. In addition, your internet service performance may be adversely impacted by the inside wiring at your premises. Accordingly, you, the customer, must consider the capabilities of your own equipment when choosing and using our broadband internet service. The computers, wireless devices, or other networks in your homes or offices may need an upgrade to take full advantage of your chosen BOLT broadband plan. BOLT does test each service for actual and expected access speeds at the time of network installation to demonstrate that the service can support the advertised speed.

- F. Commercial Pricing. To view current pricing for commercial broadband Internet access service, please visit our website at <https://boltfiber.com/broadband-label/> which includes Broadband Labels for each of our broadband internet access offerings or call 844-256-2658 to speak with a customer service representative. BOLT internet service is priced on a flat-fee basis (plus applicable taxes). BOLT does not charge end users a usage-based fee for such services. The information on our current Broadband Labels is also available in a “machine readable” spreadsheet form at <https://boltfiber.com/broadband-label/> by selecting “Machine Readable Broadband Label” at the bottom of the page.

- A. **How BOLT Collects Personal Data.** There are two ways BOLT may collect Personal Data: 1) you give it to us through your account set-up, account communication, and/or survey responses; and 2) we may receive it through your use of our services. Personal Data includes personally-identifiable information, billing history, purchase/subscription habits, responses to surveys, or information concerning your property.

- B. **Why BOLT Collects Personal Data.** Personal Data assists BOLT with providing quality services and allows BOLT to communicate with you so we may better understand how you use BOLT services; this may include the delivery of marketing campaigns and advertising material through United States Postal Service, email, text messaging, or phone calls. You may opt out of receiving marketing by calling 844-256-BOLT. Personal Data also assists BOLT with detecting and avoiding fraud.
- C. **Sharing Your Personal Data.** BOLT does not share your Personal Data with any third-party that is not an affiliate of BOLT and necessary for the provision of your services. Third-party affiliates are obligated to maintain all information as confidential. Your Personal Data is not sold or disseminated to non-affiliated third parties. Personal Data may be shared with a third party at your written request, as required by law and in cooperation with regulatory agencies, or in complying with court orders, subpoenas, lawful discovery requests, and as otherwise required by law.

XI. LIMITS ON BOLT'S RESPONSIBILITY

- A. **Service Interruptions.** Services may be interrupted from time to time for a variety of reasons. BOLT is not responsible for any interruptions of the Services that occur due to acts of God, power failure or any other cause beyond its reasonable control.
- B. **WARRANTY DISCLAIMER.** Except as provided herein, BOLT makes no warranty regarding any service, software, or equipment, which is provided as is. All such warranties, including the implied warranties of merchantability and fitness for a particular purpose, are expressly excluded. You bear the entire risk as to the quality and performance of the equipment and are responsible for the entire cost of any necessary repair.
- C. **Limitations of Liability.** BOLT IS NOT RESPONSIBLE FOR ANY DIRECT, INDIRECT, SPECIAL, CONSEQUENTIAL, INCIDENTAL OR PUNITIVE DAMAGES OR LOSSES RELATING TO OR ARISING OUT OF THE USE OF OR INABILITY TO USE THE EQUIPMENT, SOFTWARE, OR ANY SERVICE, WHETHER BASED ON NEGLIGENCE OR OTHERWISE EVEN IF BOLT OR ITS LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, OR FOR ANY CLAIM BY A THIRD PARTY. Some states or jurisdictions do not allow the exclusion or limitation or consequential damages, so the above limitation may not apply to you.

12. RESOLVING DISPUTES

In order to expedite and control the cost of disputes, you and BOLT agree that any legal or equitable claim relating to this Agreement, any addendum, or your Services (referred to as a “Claim”) will be resolved as follows:

- A. Informal Resolution. Subject to the exception noted below, neither of us may start a formal proceeding for at least 60 days after one of us notifies the other of a Claim in writing. You will send your notice to the address on the first page of this Agreement, and BOLT will send its notice to your billing address.
- B. Formal Resolution. Subject to the exceptions noted below, if we cannot resolve a Claim informally, any Claim either of us asserts will be resolved only by binding arbitration. The arbitration will be conducted under the rules of JAMS that are in effect at the time the arbitration is initiated (referred to as the “JAMS Rules”) and under the rules set forth in this Agreement. If there is a conflict between JAMS Rules and the rules set forth in this Agreement, the rules set forth in this Agreement will govern. **ARBITRATION MEANS THAT YOU WAIVE YOUR RIGHT TO A JURY TRIAL.** You may, in arbitration, seek any and all remedies otherwise available to you pursuant to your state’s law. If you decide to initiate arbitration, we agree to pay the arbitration initiation fee and any additional deposit required by JAMS to initiate your arbitration. We also agree to pay the costs of the arbitration proceeding. Other fees, such as attorney’s fees and expenses of travel to the arbitration, will be paid in accordance with JAMS Rules. The arbitration will be held at a location in your hometown area unless you and we both agree to another location or telephonic arbitration. To start an arbitration, you or we must do the following things:
1. Write a Demand for Arbitration. The demand must include a description of the Claim and the amount of damages sought to be recovered. You can find a copy of a Demand for Arbitration at www.jamsadr.com.
 2. Send three copies of the Demand for Arbitration, plus the appropriate filing fee, to:

JAMS
500 North State College Blvd., Suite 600
Orange, CA 92868
1-800-352-5267

3. Send one copy of the demand for arbitration to the other party.
- C. Special Rules. In the arbitration proceeding, the arbitrator has no authority to make errors of law, and any award may be challenged if the arbitrator does so. Otherwise, the arbitrator's decision is final and binding on all parties and may be enforced in any federal or state court that has jurisdiction. Neither you nor we shall be entitled to join or consolidate claims in arbitration by or against other individuals or entities, or arbitrate any claim as a representative member of a class or in a private attorney general capacity. Accordingly, you and BOLT agree that the JAMS Class Action Procedures do not apply to our arbitration. A court may sever any portion of this section that it finds to be unenforceable, except for the prohibition on class, representative and private attorney general arbitration.
 - D. Exceptions. Notwithstanding the foregoing, any Claim based on Section III paragraph C and Section IV paragraphs F and G above, and any dispute involving a violation of the Communications Act of 1934, 47 U.S. C. § 605, or the Digital Millennium Copyright Act, 17 U.S.C. § 1201m or the Electronic Communications Privacy Act, 18 U.S.C. §§ 2510-2521, or any other statement or law governing theft of service, may be decided only by a court of competent jurisdiction. You may also assert an individual action is small claims court in lieu of arbitration.
